TECH EXPERTS

Capability Statement

2026

Who We Are

We're a global, multi-award winning team of IT, cyber security, and cloud technology experts. **Our tech experts take the time to understand your business, so we can provide smart advice and solutions to help you thrive.** From connecting teams to improving processes, ensuring infrastructure is reliable, and strengthening cyber resilience, you can count on us to help you get the most from your investment.

About Us

Ever Nimble is an award-winning MSP and MSSP supporting businesses across industries including Mining, Financial Services, Legal, and Aged Care with agile, secure, and high-performing IT solutions.

We're backed by a global team of more than 100 tech experts, and deliver proactive IT, cyber security, compliance, and Microsoft 365 solutions that help businesses work smarter and stay protected. With local teams in Australia, the UK, and Canada, we provide around-the-clock support so you can reduce downtime and keep critical operations running.

Over the years we're proud to have picked up a string of industry awards as well. This includes MSP of the Year and regularly ranking in the CRN Fast 50, reflecting our fantastic team and commitment to helping customers achieve real business outcomes – not just IT support.

Our Values

We're a caring team of experts who are clear communicators, and who value diversity within our company, customers, and industry. We live by our values; they form the foundation of our culture and putting them into action drives the success of our business and customers.

Be Caring

Be Team Players

Be Experts

Be Communicators

Be Diversity Champions

Our Capabilities

TECHNOLOGY (MSP)

We bundle support and services to bring you unrivalled technology, expert advice, and around the clock support at an easy to manage monthly fee.

- Helpdesk and User Support
- Virtual CIO/CTO
- Solutions & Project Services
- AI Consulting
- Disaster Recovery and Backups
- Procurement
- Network Secruity

CYBER (MSSP)

We take a proactive approach to strengthen your cyber defences, so you can secure data, safeguard operations, and meet compliance requirements. We also offer advanced cyber security services including:

- 24x7 Security Operations Centre (SOC)
- Cyber Awareness Training (CAT)
- Penetration Testing
- Endpoint Protection (XDR, EDR, NGAV)
- Business Email Compromise Response
- Compliance & Risk Management, SMB1001 & Essential

CLOUD SERVICES

- Microsoft 365 & SharePoint
- Microsoft Copilot for 365
- Microsoft Azure & Azure Local
- Microsoft 365 Security Review & Reporting
- Cloud & Process Improvement

NETWORKING & COMMUNICATIONS

We design and manage the networks that keep your business connected, so your team stays online, secure, and ready to scale.

- Managed Secure Firewalls & Networking
- High-Performance Networking & SASE
- Managed Internet & Starlink
- Microsoft Teams Phone
- Network Security
- Fortinet Experts

Leadership Team

CHRIS MORRISSEY

CEO & MD

An IT and cyber security expert, Chris is passionate about promoting equity and diversity within the IT industry and in 2020 was recognised as a Diversity ally by WITWA. Chris was one of the Business News 40under40 award winners in 2022, was named in the Top 100 Australian Young Entrepreneurs of 2023, and was the Pearcey WA Entrepreneur of the Year in 2025.

DAVID HALL

CCO

Keeps the company at the forefront of technical innovation, with 20+ years delivering project and support services across mining, healthcare, finance, and not-for-profit sectors.

EDDIE VRBOVAC

CCO

Passionate about delivering technology that simply works, Eddie leads Ever Nimble's managed services team with 15+ years of experience focused on great customer experiences and smarter processes.

SHANIL DAYA

CISO

Passionate about cyber security and disaster recovery, Shanil enjoys introducing businesses to smart solutions that improve processes and productivity.

CHRIS HANSON

CTO

A natural problem solver with 15+ years across infrastructure, cloud, and managed services, designing solutions that keep businesses secure and ready for what's next.

ERIN WILLS

CFO

Brings nearly 20 years of experience across finance, operations, and business leadership, with a focus on efficiency and informed decision-making for sustainable growth.

GABBY MANNELLA

CMO

A marketing strategist with 16 years of experience, blending creativity with data-driven insights to build brand strategies that drive growth.

GLEN RETALLACK

Head of Revenue

PAUL WALTERS

Head of Service Delivery

AMY LEESON

Manager - Cyber Response & Vulnerability

ANDREW WILKINSON

Manager - Solutions

CAM WILLIAMS

Manager - Solutions (AFRICA)

GEORGA COLE

Manager - SUPPORT

Case Study:

Disaster recovery that helps you sleep at night

PERSEUS MINING IS AN AFRICAN GOLD PRODUCER, DEVELOPER, AND EXPLORER. THE BUSINESS HAS FOUR OFFICES AND THREE OPERATING MINE SITES ACROSS CÔTE D'IVOIRE AND GHANA.

The ASX-listed business identified the need for a new disaster recovery (DR) system when their legacy DR system was failing to replicate data, reporting wasn't accurate, there were increasing management overheads trying to fix failing backups, and there was limited DR capacity available for use.

Challenge

- The new BCDR system needed to be deployed across multiple remote locations, factoring in poor internet conditions on site.
- The system needed to be deployed with minimal disruption to operations.
- Perseus Mining had worked with another partner who was unable to deliver a solution. The estimated cost of this BCDR system was $250k, with a six month rollout.

Solution

- A solution in collaboration with Datto that cost less than $10k per month, with rollout that would take less than two months and deliver better outcomes.
- An easy to manage "traffic light" system for all backups.
- Daily automated DR testing at all locations, providing peace of mind the system will work in the event of a real disaster.
- Accurate reporting.
- A simple, scalable solution that can be easily replicated across new locations and acquisitions.

Even to this day, I'm sceptical about how it works so well. It seems too good to be true. Having had so many other backup systems in place in previous roles, this is the first one that does what it says and has had the least amount of management overhead to achieve the required outcome.

– **Stacey Squire,** Group Technology Manager at Perseus Mining

Why Choose Us

We get IT, so you don't have to. We get to know your business and deliver honest advice, informed strategies, and tailored solutions that help you thrive.

Clients Love Us

GRANT

The excellent team at Ever Nimble is highly motivated and proactive to ensure the best client outcomes. I have always had prompt and efficient service resolving issues and I can highly recommend them without reservation.

NICK

Professionalism, quality, responsiveness, value. Absolutely amazing team. Could not recommend highly enough, a highly skilled, customer focused, driven and dedicated team of solutions and support experts.

JOHN

We are a global mining company, and we trust Ever Nimble to protect our data and IT systems. We really enjoy having the team in our office; they are extremely helpful, efficient, and understand how we operate. They keep things easy and simple to understand.

MARY

Our accounting firm relies on our IT being stable and secure. We have just recently switched to Ever Nimble and signed up for the Ever Secure bundles. The transition has been quick and pain free.
